

Create more than one million colors!

Nova-Lite^{Patent Pending} by Gallina USA

Dynamic diffused daylighting for your designs

- Translucent Polycarbonates
- LED Lighting Technologies
- Programmable Controls
- High Energy Efficiency
- LEED Contributing Systems
- Multiple Glazing Options
- Nanogel Aerogel Available
- 3form EcoResin Options
- Color Kinetics LED Systems
- Sound Transmission Blocks
- Interior/Exterior/Combinations
- Affordable Aesthetics

Transmit diffused natural light during the day with dynamic color at night.

Program your colors.
Create your environment.
Anytime. Anywhere.

Nova-Lite by Gallina USA

System Summary

- Multiple translucent glazings
- Interior, exterior or combinations
- Single or double-glazed systems
- Contemporary appearance
- Widest range of design options
- Demountable as desired
- LED lighting technologies
- Programmable controls
- Dramatic backlighting appeal
- Project diffused daylight deep into space
- Project light inside wall's interior
- **Design/build around your ideas**
- Optional Nanogel aerogel
- 3form EcoResin panels
- Diversity of polycarbonates
- Demountable as needed
- CC1 – Class A rated options
- High-end solutions with economy

Design / Structural Options

- Seamless expanses-no mullions
- Standard panels up to 24 ft. long
- Install vertically or horizontally
- Aluminum tube wall & partition structure custom-designed and fabricated to your design's specifications
- Aluminum mullions where required
- Custom panels up to 39 ft. long
- Grid patterns to uniquely manipulate light
- Elegant curved walls & corners
- Mount to steel or wood studs
- Relocate systems as needed

Ideal Applications

- Interior, exterior, combo walls
- Canopies and walkways
- Panels of all types
- Landmark beacons
- Ceilings – suspended – shaped
- Partitions for multiple uses
- Signature signage
- Dramatic backdrops
- **LEED-certifiable projects**

Glazing Options

- Translucent polycarbonates
- Opal, crystal, blue, green, bronze
- **NEW! Now available with high-performance Nanogel® translucent aerogel for exceptional thermal and acoustic efficiency plus environmentally friendly diffused light**
- **NEW! Now available with 3form Inc.'s translucent EcoResin panels offering hundreds of aesthetic choices**
- Run flutes vertically or horizontally
- Combine panels for unique designs
- Block images for total diffusion
- Create combinations to suit

Frame Finish Options

- Kynar finishes
- Anodized finishes
- Electrostatically painted finishes
- Custom architectural colors

System Installation Support

- Complete system specifications
- Designed for installation ease
- Installation technical support
- Superior technical assistance from design concept through installation
- Field-fabricated to ensure accuracy, reduce dependency on installation measurements, reduce errors

Lighting Technology

- Design services available
- Full-spectrum white light control
- LED light clusters create more than one million programmable colors
- Programmable lighting effects with independent fixture control
- Systems and solutions for indoor and outdoor applications
- **NEW! High-performance LED technology by Color Kinetics**
- 100,000-hour light life

Lighting Technical Support

- Pre-programmed lighting
- On-site training
- On-site programming services
- Telephone support
